

Dominoes and the Law

7 dominoes were standing in a row.

Someone knocked over the first and the others fell one-by-one:

1. **Law** - Suppose the law is rejected and claimed obsolete by all created beings. (**Da 7:25**)
2. **Sin** - If there is no recognized law, then there is no recognition of sin. (**Ro 4:15, 1Jn 3:4**)
3. **Saviour** - If there is no recognition of sin, then there is no acceptance of a Saviour. (**Lk 13:3**)
4. **Gospel** - If there is no acceptance of a Saviour, then there is no gospel. (**1Co 1:18**)
5. **Preacher** - If there is no gospel, then there is no need for preachers. (**Ro 10:13,14**)
6. **Church** - If there are no preachers, then there is no need for churches. (**2Co 5:20**)
7. **Life** - If this point is reached, then sin stands unpaid and spreads unchecked, wickedness and suffering increase, and the final consequence is eternal death. (**Rev 20:14,15**)

Hence, the relevance of God's law. (**Isa 42:21, Rev 12:17, Rev 14:12**)

In reality, it is impossible to alter God's perfect law. (**Ps 19:7, Ps 111:7,8**)

Even if only one sinner were to acknowledge God's law, to repent, and to accept Jesus, Jesus would still have gone to the cross for that one trusting soul. (**Mt 18:12-14**)
